
Crow Song

Yoga Therapy

Ashtanga yoga has a reputation problem.

**It's seen as punishing.
Elite. Inflexible.**

But the Primary Series is literally called Yoga Chikitsa.

Yoga therapy.

The tradition was always about healing first.

christine's practice lives in the gap—

**between what Ashtanga is perceived to be
and what it was designed to do.**

One-on-one. Adapted. Recovery. Awareness.

The brand signals this difference.

Crow Song

The crow moves between worlds.

Transformation. Intuition. Sacred messenger.

The song is breath—the ujjayi that carries the practice.

No clichés.

Therapeutic Ashtanga for bodies in transition.

Guided by christine.
Grounded in tradition.
Adapted to you.

Not a wellness palette.

No sage green. No blush pink. Those signal spa. This is practice.

Lavender

Two words. Both capitalized.

Not shouting, but not whispering either.

Confident. Approachable. Professional.

christine stays lowercase—intimate, personal, one-on-one.
